jaimearrington57@gmail.com

New York, NY

Recently graduated with my Master's in Business and Science with an emphasis in User Experience and Product Design. I am looking to join a leading, consumer-first technology company. With my technical consumer knowledge base, directly tied to my understanding of the fundamental workings of human behavior, I bring a non-replicable perspective and the ability to translate business objectives into viable, ready-for-market products.

EXPERIENCE

Style Advisor – Fashion Merchandise Sales

Aritzia SoHo Flagship Boutique *April 2026 – Present*

- Averaged \$500+ sales per hour, demonstrating strong client conversion and the ability to translate customer needs into measurable commercial impact
- Developed working knowledge of product positioning and business strategy at the flagship of a global fashion brand, balancing customer value with commercial outcomes

Product Design Intern – Fashion AI Technology

Forté *May 2025 – September 2025*

- Conducted market research (SWOT, Competitive Analysis, Gap Analysis) to define product strategy, prioritize features, and identify opportunities to optimize engagement and retention
- Collaborated directly with startup founders through iterative product cycles, translating research and design decisions into a developer-ready Figma design system + prototype handoff, aligning with product requirements

Product Design Extern Team Lead

PharmAllies via Rutgers MBS *January 2025 – May 2025*

- Led a team of 4 UX designers across an agile sprint, coordinating with stakeholders to deliver an interactive interface redesign through structured weekly communication
- Designed and executed mixed-methods research with 12+ users, translating quantitative and qualitative findings into actionable design recommendations

“I'M A PERPETUAL LEARNER WITH AN INSATIABLE CURIOSITY ABOUT PEOPLE AND A COMMITMENT TO FOLLOWING WORK THAT I FIND PASSION IN.”

EDUCATION

Master's Degree in Computer & Information Sciences

Rutgers University, New Brunswick;
Graduated May 2026

Bachelor's Degree in Behavioral Neuroscience

Florida State University, Graduated May 2023

SKILLS

- Client Relations
- Persona Curation
- A/B Experimentation
- Usability Testing
